

Remember the dead Fight for the living

On 28 April, International Workers' Memorial Day, we remember those who have died as a result of accidents, injuries or illnesses caused by work.

UNISON is serious about health and safety. We will continue to campaign for improvements and challenge issues that risk threatening the health and safety of our members.

Health and safety provisions should be there for everyone in every workplace, not just in the UK but across the world.

As the UK's largest trade union, through our affiliation to the TUC, we are supporting the ITUC's demand that the International Labour Organization (ILO) adopts occupational health and safety as a fundamental right at work.

For further information on the ITUC demands, or to find out more how you can get involved please scan the QR code below.
